

## About PM-WANI

PM-WANI, which stands for Prime Minister's Wi-Fi Access Network Interface, is an initiative launched by the Government of India to provide affordable and accessible internet connectivity across the country. Introduced in December 2020, PM-WANI aims to bridge the digital divide and enable millions of Indians, particularly in rural areas, to connect to the internet.

## Benefits of Becoming PDO..

---

- Business Opportunities
- Infrastructure Leverage
- Expanded Customer Base
- Government Support
- Boost to Digital India
- Increased Footfall
- Collaboration Opportunities

## How to access broadband on PM-WANI Wi-Fi?

---

The potential user who wants to access Broadband through Public Wi-Fi will need to download the relevant App, get authenticated, and thereafter access Broadband at any Public Wi-Fi Hotspot. When the user reaches a Public Wi-Fi Hotspot, the App on the mobile phone will show various available networks. The user can then choose the Public Wi-Fi network of choice, pay an amount – either online or through voucher – and use the network till the balance is exhausted.

## Ecosystem

---

PM-WANI Consists of:

### PDO

Public Data Office will establish, maintain, and operate PM-WANI compliant Wi-Fi Hotspots and provide last-mile connectivity to deliver Broadband services to subscribers.

### PDOP

A Public Data Office Partner (PDOP) must register with the Secure E techno World Pvt. Ltd. using its public certificate for signature validation. It must also register its associated PDOs' Wifi Access Points, SSIDs, and locations.

### App Provider

App Provider will develop an Application to register users and discover and display PM-WANI compliant Wi-Fi Hotspots in the proximity for accessing the internet service and also authenticate the potential Broadband users.
